Dear Applicant:

Thank you for your interest in becoming a Speech-Language Pathology or Audiology licensee in California. Enclosed are documents required for licensure.

Since you have already completed your required professional experience but do **not** have ASHA certification and are applying for licensure, you will need to complete the Application for Licensure form, Required Professional Experience (Verification) form, Report of Clinical Practicum form, and Fingerprint Card. With these completed forms you will need to provide a check for \$116 (\$60 for the license application fee, and \$56 for the fingerprint-processing fee). In addition, you will need to provide official transcripts from your graduate and undergraduate schools, the original copy of your NTE exam score report, and the Verification of Licensure form completed and signed by every state board in which you hold a current license.

If you are also applying for a temporary license to practice in California while your application is being processed, you should complete the Application for Temporary License and submit a check for \$146, which includes the \$30 temporary license fee. If it has been more than 5 years since you have taken and passed the NTE examination, you may also want to submit a Request for Waiver of the NTE Exam form, **(Once all information has been received, reviewed and approved, you will be issued a speech-language pathology or audiology license.)**

After reviewing the information provided in this packet, if you have any questions, please contact this office at (916) 263-2666. Office hours are Monday through Friday, 8:00 a.m. to 5:00 p.m.

Sincerely,

Annemarie Del Mugnaio
Executive Officer
